***** Note To Customers *****

Above is a list of certified testers and/or the companies who employ them. The listed testers/companies have provided the Campbell County Utilities and Service Authority (CCUSA) with the appropriate paperwork from a backflow instructor/school stating they are certified to perform tests on backflow assemblies. The "Tester List" provided by CCUSA is merely a reference list. CCUSA is not responsible for the following items performed by a certified tester/company. Including but not limited to; tests performed in the allotted time given by CCUSA, agreement with the tester/company to deliver the appropriate paperwork in the allotted time, and/or cost to the customer. If a customer feels that a tester/company has acted in an unprofessional or unethical manner and/or has any other concerns, a complaint can be filed with CCUSA's Cross Connection Inspector at 434-239-8654.
